

EDUCATION

Troy University
B.S. in Computer Science

Troy,
Expected
Graduation:
May 2026

SKILLS & PROJECTS

Languages: C++, Python, Java, C#, HTML, Bootstrap
Frameworks & Technologies: .NET, REST APIs
Tools: Microsoft Excel, Microsoft Word, GitHub, Visual Studios, Microsoft Suite
Cloud/DevOps: AWS
Soft Skills: Student Leadership, Team Collaboration

Weather App: A weather application features a Python backend and integrates a weather API to provide real time weather reports.

EMT Rockets Store: Our group implemented a minimal store application in Java emphasizing clean architecture, documentation, and traceability between requirements, design artifacts, and code

Earthbound Co. Website: Our group Implemented core interface elements including a navigation menu, tables, embedded images, and interactive image maps to enhance usability and content organization.

EXPERIENCE

Software Developer Intern

The National Security Group

Elba, AL

August 2024 – May 2025

- Developed, tested, and maintained .NET applications with C#, which increased office production by 25%
- Implemented REST API endpoints to support business logic
- Collaborated with cross-functional teams to deliver scalable, efficient solutions
- Debugged and troubleshoot software issues using strong analytical skills

Resident Director

Troy University

Troy, AL

August 2024 – Present

- Supported residents with academic and personal matters, which boosted student moral by 43%
- Responded to incident reports, room transfers, and maintenance requests
- Oversaw front desk operations and documented residence hall activities

Student Researcher

Penn State Altoona

New York City, NY

June 2024 – July 2024

- I engaged in a field research experience to study dragon fly wing structure, were we collected 1,836 dragonflies
- Conducted a comparative analysis to obtain area measurements of the pterostigma, forewing, and hindwing of dragonflies.
- Analyze neural morphological characteristics of the specimens using microCT, as well as Raman spectroscopy to analyze chemical composition of wing and vein surfaces.

ORGANIZATIONS

Computer Science Club — Troy University

August 2022 – Present

- Built secure user authentication system (HTML, CSS) at 2023 Hackathon
- Contributed to collaborative projects using Java and Python
- Practiced version control and conducted peer code reviews
- Website portfolio: www.malekstaffordport.com

LEADERSHIP

Senator, College of Arts and Sciences Troy University SGA

March 2023 – May 2025

- Liaison between students and administration
- Drafted student life improvement bills
- Initiated new campus events, increasing student engagement by 48%
